

Third World Day against Abortion

Sunday, 8th September 2023 – Nativity of the Blessed Virgin

After the two previous editions of the World Day against Abortion, which not only elicited excellent responses among Italian Catholics but also in several other parts of the world, we hereby re-propose this important initiative in defense of innocent life.

Benefiting from huge funding from globalist supranational entities, abortionism is one of the first causes of extermination of innocent victims in the world, through various increasingly aberrant techniques, from saline abortion to partial birth abortion, from curettage to aspiration, not to mention the countless abortions obtained through the notorious "day after pills". And now the EU, led by France, pushes for the recognition of a non-existent "right" to abortion to be introduced into local constitutions, which would make any expression of dissent illegal.

Unborn babies are, of course, the first and foremost victims of abortion, but we can think of others: Mothers, deceived by a whole system preventing them from recognizing what is most precious to them -- the life of the babies they are carrying in their wombs; fathers, made unaware of and irresponsible for their sexual activity until they have lost their role and identity; the medical world, which has betrayed the first principle of the Hippocratic Oath -- primum non nocere; each country's legal systems, which, after abdicating their role of guide towards the common good, have now thrown society into a systematic denial of Natural Law; public opinion, made incapable of critical thinking, unable to claim from legislators the due respect for life, which cannot be subjected to any human being's will.

All the battles fought by Pro-life movements have greatly contributed to raising public awareness on the subject, and this is a great merit before both mankind and God himself, the Author and Defender of life. As we declared in 2022 and 2023, we are convinced that, in this historical moment of worldwide anthropological and spiritual degeneration, the battle in defense of innocent human life must take a step forward.

Tis is why the "Confederazione dei Triarii" announces the

Third World Day against Abortion

comprehensive of several points:

- 1) Celebration of Holy Masses against abortion, so that the offering of the Body and Blood of Our Lord may put an end to this modern daily slaughter of the innocents.
- 2) Eucharistic adorations, accompanied by the Holy Rosary, to beg the Mother of God so that no more innocent creatures are sacrificed to the Moloch of totalitarian relativism.
- 3) Public processions of reparation for all the sins committed against unborn life.
- 4) Recitation of the Holy Rosary by the faithful with the same intentions.
- 5) One or more days of fasting offered for the same.
- 6) Conferences and lectures, both face-to-face and from remote, to show everyone the horror of this crime.
- 7) Creation of a worldwide prayer network for the abolition of abortion.

Points 1) 2) 3) 4) can be implemented both publicly and privately.

Point One is certainly the most effective, because it offers the Second Person of the Most Holy Trinity to God's Divine Majesty, begging Him to put an end to abortion. To this end, the faithful who have Holy Masses celebrated will specify to the priest the intention of the offerer.

We trust in the support of the clergy and of many Catholic associations, so that the choral prayer of the Church may obtain this grace from Our Lord.

The day chosen for the Third World Day Against Abortion is Sunday September 8th 2024, the Nativity of the Blessed Virgin Mary, Mother of God and of all motherhood.

In Italy, this feast will be publicly celebrated on Saturday 7 September at the shrine of the Madonna della Corona, near Verona.

We invite everyone interested in joining us, both privately and publicly, through associations or local initiatives, to contact us at info@confederazionetriarii.it
